MEMORANDUM FOR: Director of Central Intelligence
Deputy Director of Central Intelligence

FROM : SA/DCI/IA

SUBJECT : Agenda for Breakfast Meeting with Defense,
30 July 1982

1. The following items are on your agenda for tomorrow morning's breakfast:

- Lebanon. You will most likely want to discuss the latest reporting we have from Habib and intelligence channels on the situation in Lebanon and elsewhere in the Middle East relative to the Lebanese problem. You will have the latest intelligence in the morning pubs. For now, I have included the two memos from [] office which you had for your meeting with Judge Clarke yesterday as well as the recently published listings of the Lebanese presidential election procedures and the efforts to find homes for the Palestinians. You may also wish to discuss reports in today's publications on Israeli cluster bombs and Israeli concern over possible use of Syrian Scud missiles. 25X1
- Iran-Iraq war. Now that Iran has launched the "third phase" of its invasion of Iraq, you will have your latest information on the progress of the battles in tomorrow morning's publications. [] people will provide you in the morning any late-breaking information that goes beyond what is reported in the morning publications. Meanwhile, you have recent memos on Iran-Iraq military strengths and weaknesses and the OGI paper on Persian Gulf oil facility vulnerabilities. 25X1

You should have with your morning package copies of the published version of this IIM to hand out to Weinberger and Carlucci.

25X1

- El Salvador. In light of the Administration's recent certification on human rights, you may wish to brief Carlucci and Weinberger on the DDCI's planned testimony before the Senate Foreign Relations Committee on Monday. Included for your reference is Constantine's chronology of the support given to State on the certification issue and a copy of the intelligence estimate approved by NFIB on Tuesday.
- Nicaragua/Honduras. Given the alarm expressed by the Hondurans, you may wish to discuss briefly the prospects for conflict between Honduras and Nicaragua.

25X1

2. As I mentioned to you yesterday, Defense decided there was no need to discuss the space policy issue. Therefore, in accordance with 25X1 recommendation, there appears to be no reason for you to raise the issue either.

3. In a separate package I have clipped together some material provided by SOVA assessing recent analyses of Soviet dependence on foreign trade. This was an issue discussed between Weinberger and Shultz this morning, but Weinberger decided it was not necessary to spend time on it during your meeting tomorrow. In addition, I have stuck in your package the recent report on the identification of a possible new Soviet tank which makes the T-72 two generations old.
